DALEY BREAD

Faculty Commons: A Ministry of Cru

Christian professor, Dr. Heather Holleman, a writing instructor at Penn State University, prays for each of her students every semester. She explains, “I pray that things I say and teach will plant seeds for the gospel or at least help prepare the soil of their hearts to know the love and grace of God.”

Mid-way through each semester, Heather mentions in class that she is a follower of Jesus. And Heather’s students every year ask about her faith...

Joe asked Heather to tell the class her secret for being so happy all the time.

Eric asked her how she knew what the purpose of her life was.

Carlos asked her why she chose Christianity over other religions.

Dean invited Heather to coffee and asked her to explain who Jesus was and explain the power He supposedly has.

Heather is on Cru staff with our Faculty Commons ministry, which works with professors, winning them to Christ and encouraging believing professors to share their faith.

When Bill and Vonette Bright first launched Cru as an evangelistic movement in 1951, their slogan was “win the campus today and change the world tomorrow.” Over 65 years later, our staff and volunteers are still on the frontline in the battle for students’ and professors’ minds and hearts.

Our Part in the Story

Although our daily ministry is with technology, we're really assisting our global staff in their discipleship of these professors and others. Together with them and with you, we are connecting the people of the world to Jesus in 181 countries.

We sense God is using our skills and interests more than ever before. Tim is responsible for keeping nearly 150 servers running properly which provide donations processing, financial services, and human resources support along with many other services.

Judy works in Leadership Development and Human Resources. She helps encourage and train staff as well as walking them through all the legalities one needs to navigate in today's complex world in ministry.

As we get ready for our national staff conference in July, we are looking forward to hearing how God is moving all around the world through our ministry. We'll be serving in the Moby Gym where all the General Sessions are held.

Your Part in the Story

In a few weeks, we will be in Ft. Collins, Colorado, for our National Staff conference from July 16th to 23rd. We, along with 5,000 other U.S. staff, will hear from our Cru leadership *on the direction of the ministry, be challenged by Christian leaders and Bible teachers, and attend seminars that will help equip us to be more effective in our ministry.*

This year, we need to raise an additional \$3000 for this nine-day conference and for our travel expenses. Thank you for praying for God's provision for this ministry expense. If you feel God prompting you to help us, you can go to <https://give.cru.org/> and search for our names.

Through your partnership with us, we help Cru staff members minister everyday around the world to those who are without Christ. Your partnership with us has touched millions: bringing the lost to Jesus, and discipling and training believers for His glory. We're blessed to work alongside you and the staff of Cru's ministries, like Faculty Commons. Thank you for helping us reach the world where many are in need of Christ. We're grateful for your partnership!

NOTE: If you're interested in checking out Heather's books, find them on Amazon.

Prayers Are Needed

It seems that the late Spring and early summer has brought an abundance of challenging events into our children's lives and we are asking you to pray for them.

Laney has developed what was originally diagnosed as bursitis in her right shoulder. After weeks of treatment and tests she is still unable to work and the original diagnosis is in question. Please pray for the wisdom of God in her treatment.

Corey's Mom was hospitalized for a serious emergency surgery which kept her intubated for many days. It was hard on Corey to be so far away from her and to not even be able to talk to her on the phone. She is home now so pray for her recovery.

Marsh is still interviewing for a position in Graphic Design- which he was trained for in college. Pray for a job.

Lastly, the kid's home was struck by lightning and they lost a lot of their electronics. Pray that God would provide the means to replace them.
